Moderator, Arthur L. Carpenter.

School Board, George D. Cummings, Edgar A. Bishop, Jennie H. Field.

Secretary, A. Maude Taggart.

Treasurer, Katherine M. Jones.

Auditors, Forrest G. Field, William A. Knowles.

# TOWN WARRANT

---

To the Inhabitants of the Town of Peterborough  
Qualified to Vote in Town Affairs

---

You are hereby notified to meet at the Town House in said town on Tuesday, the fourteenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

- 1st. To choose all necessary town officers and agents for the ensuing year.
- 2nd. To raise such sums of money as may be necessary for the maintenance of the poor, for the laying out and repairing of highways, and all necessary charges arising within the town, and appropriate the same.
- 3rd. To raise and appropriate such sums of money as may be necessary for the support of the Fire Department, Public Library and for the Grand Army on Memorial Day.
- 4th. To see what sums of money the town will vote to raise and appropriate towards paying the town debt and interest.
- 5th. To hear the reports of agents, auditors, committees, or officers heretofore chosen, and passing any vote relating thereto.
- 6th. To see if the town will vote to instruct the Selectmen to appoint a police officer whose duty it shall be to preserve order in and about the public places in town, and perform such other duties as are required by the Selectmen, both day and night, and such other police officers as may be required, and raise and appropriate money for the same.
- 7th. To see if the town will vote to accept legacies and gifts given to the town in trust by different individuals, the income to be used in the care of cemetery lots.

8th. To see what sum of money the town will vote to raise and appropriate to defray the expenses of Old Home Week.

9th. To see what sum of money the town will vote to raise and appropriate towards building the South Side Highway.

10th. To see what action the town will take relative to erecting a permanent memorial to the men who were in the United States Service during the world war and to raise and appropriate money for the same.

11th. To see what sum of money the town will vote to raise and appropriate for the purpose of protecting the trees of the town against insect pests.

12th. To see if the town will vote to accept state aid under the laws of 1905 for permanent improvements of main highways and raise and appropriate money for the same, or take any other action relating thereto.

13th. To see if the town will vote to repair School Street from Grove Street to Depot Square, and raise and appropriate money for the same.

14th. To see if the town will vote to buy a scarifier for the Highway Department, and raise and appropriate money for the same.

15th. To see if the town will vote to buy a snow plow for use in breaking roads in the winter, and raise and appropriate money for the same.

16th. To see what action the town will take toward the disposal of the town tool house and the lot upon which it stands, and what money it will raise and appropriate for the same, or what other action it will take relating thereto.

17th. To see if the Town will vote to accept the provisions of Chapter 117, Laws of 1917, on a section of the Contoocook Valley road so called and appropriate, or set aside from the amount raised for highway work the sum of \$600.00 for this purpose.

18th. To see if the Town will vote to raise and appropriate money to be used toward paying for the services of a District Nurse.

19th. To see if the Town will vote to raise and appropriate the sum of \$1000.00 to continue the construction of the gravel

road beginning where the work ended last year on the Greenfield Road. The same to be under the supervision of the highway agent.

20th. To see what sum of money the town will raise and appropriate towards the completion of the West Peterborough Water System, or to see if the town will take any other action relative thereto.

21st. To see if the town will vote to allow Albert W. Noone to put a line of poles within the limits of the highway, from the spring on the highway leading to East Jaffrey, near a large rock, to the South Factory Village, and from the south end of the old road between said village and the Goodhue corner, so called, to the bridge over the river, near White's machine shop, to wire the same for power, heat and lights for his own use.

22nd. To see if the Town will raise and appropriate money for the erection of five street lights in the following locations:

- (1) Near the corner of Main and Grove Streets.
- (2) On the pole near the northeast corner of the Town Library on Concord Street.
- (3) On Main Street opposite the residence of Fred G. Robbe.
- (4) On Factory Street.
- (5) On Winter Street between the residences of Robert J. Paquet and the Misses Grimes.

The location of said poles to be determined by the Selectmen.

23rd. To see if the town will authorize the Selectmen to appoint a milk inspector, and raise and appropriate money for the same.

24th. To see if the town will vote to raise and appropriate a sum of money for band concerts to be given by the Peterborough Cadet Band.

Given under our hand and seal this twenty-fifth day of February 1922.

FRED J. AMES  
 GEORGE E. CLEMENT  
 LEON H. DWIGHT  
 Selectmen of Peterborough

## BUDGET OF THE TOWN OF PETERBOROUGH

### Chief Engineer's Report

PETERBOROUGH, N. H., FEB. 1, 1921.

TO THE SELECTMEN OF PETERBOROUGH, N. H.:

Gentlemen: As Chief of the Fire Department I wish to submit the following report of the Department for the year 1921.

The year just closed has been one of the most disastrous to the Town since the Department was organized in the loss of taxable property, which amounts to a number of thousands dollars and it would have been a great deal more if it was not

for the quick work of the boys in responding to the calls whether the mercury was 100° in the shade of 20° below they try to respond just as quickly.

It has been demonstrated beyond a doubt, during the last year that Peterborough, not any more than other towns and cities, has got to adopt a different method in relation to keeping the roads open in the winter season. The method of travel has changed and we have got to meet it accordingly.

They say that war is Hell and I think that Fire is next to it and the only way to meet either one is to be prepared for either as best we can.

During the seven years that the Fire Truck has been in commission, it has failed only once to get to the fire after it had started and that once was caused by the bad condition of the roads in thawing and freezing weather.

If we had to depend on horse-power in responding to the Turner fire the barn and contents would have been destroyed, it was a run of practically five miles.

The apparatus and equipment of the Department consists of one Combination Chemical and hose motor truck, one hand fire engine pump "Aquarius," two hook and ladder trucks, hand drawn, three hose reels, 20 hand fire extinguishers, 2 hand force pumps, 44 pails, 1800 feet of 2½ inch linen hose, 200 feet of ¾ inch Chemical rubber hose, 62 shovels, 8 fire axes, 8 lanterns and one 50 foot, two 35 foot, one 22 and one 20 foot extension ladder, also 150 feet of wall ladders and 4 roof hook ladders, 2 large grab hooks with rope, 4 iron bars, and a number of hand hooks.

During the Bailie Basket Shop fire the Department lost 600 feet of hose on account of the freezing weather; of course some of this was old hose, but the new does not stand it any better at such times and right here I would say that the the outsiders could help the firemen at such times by helping keep the hose straight and see that it does not kink.

The Department has responded to 55 alarms during the year 16 gong, 39 still alarms, 33 chimney 16 building and 6 grass or brush fires.

I would call attention of property owners to watch the condition of their chimneys, especially during the cold weather for we will have hotter fires at such times and the single brick construction will not stand the extra heat, and if there are rats nests near, you may know the result. I have also noticed a number of places around town where the ash heap is thrown up next to the building, just take a few more steps and save yourself a lot of trouble as well as your neighbors.

As Forest Fire Warden I have issued 64 permits for burning brush and rubbish during the year and this is another part of the service that the people should observe more closely, because when the man who is stationed on the Mountain at the lookout station, observes the smoke he calls and if we know who we have issued a permit to, it saves time and a good deal of expense and trouble to a community.

Respectfully submitted

TIMOTHY E. DRISCOLL, Chief.

---

## SUPERINTENDENT'S REPORT

TO THE SCHOOL BOARD OF PETERBOROUGH:

Herewith is submitted for your consideration my fourth annual report on the condition of your school, it being the sixteenth in the series of superintendent's reports.

### TEACHERS

The year opened last September with fewer changes in the teaching force than usual. Miss Piper, in June, resigned her position in the Domestic Arts department, and the position was filled by the election of Beatrice Whittemore, a graduate from the three year course at Keene Normal School. Miss Baker, who for a number of years, has been the drawing and manual training teacher, resigned to accept a position in Penn. Her position has been taken by Miss Delia Langley, a graduate of New Hampshire State College. She also teaches some subjects in the High School, as Peterborough now has the entire time of the drawing teacher. The two teachers at the West, Miss Shedd and Miss Whippie, resigned to accept positions elsewhere, and Mrs. Katie Nichols and Miss Mary Musgrave were secured to fill the vacancies. At the close of the fall term this year Miss Hoyt, who taught the sixth grade, resigned to take effect at the beginning of the winter term. Miss Ruth Eldridge, a graduate of Bridgewater Normal, and a teacher of several years experience, was secured for her position. Miss Stearns, a Radcliff College graduate, took the position in the English department in the High School left vacant by the withdrawal of Miss Montgomery. The other teachers remain the same as last year.

The force as at present constituted is, on the whole, very efficient, and excellent work is being done. A teacher's work has to be known in detail in order to be appreciated thorough-

ly, and because it is not generally known in this intimate way, its value is often underated. The work calls for far more than the ability to hear recitations as it is so often thought of. A real teacher brings out from the child the abilities which otherwise might be neglected, and is not simply a suction pump to bring out of the child some information which he has required. She ought to be doing something far more worth while than simply hearing a certain number of classes recite in a given time. It would be well for us to think of this sometimes when we are inclined to fret and complain over the fact that Johnnie's reading class didn't recite today, or that Susie wasn't called upon to name the presidents in order as the book called for. Ten chances to one that Johnny's and Susie's classes were doing something that was far more profitable for them at that time.

#### THE WORK IN GENERAL

There are certain things that are fundamental in the work of any school, and unless these things are done efficiently the value of the school to pupils and community is, in a large measure weakened. The fundamental operations in Arithmetic should become automatic. Children should be trained to add, subtract, multiply, and divide with accuracy and rapidity, they should be able to operate with fractions and decimals they should become perfectly familiar with the principles of percentage, and a quick and accurate method of solving interest, together with some of the common rules of measurements.

In language, before leaving the elementary grades, a child should have acquired the ability to express himself, both orally and in writing, in a clear, natural manner, and correct so far as the common usages of grammar go.

He should be able to spell correctly all the familiar words in every day use, and do this without hesitation or uncertainty. He should acquire an easy legible style of handwriting. All I think, will agree that the schools should do these things well. Therefore, we are trying to emphasize them in your schools, and, in so doing, we are not neglecting other and essential things in the child's development.

Oral drills in Arithmetic are a daily exercise in order that the combinations and tables may become a part of the mental make-up of the child, and many of the pupils are becoming proficient in this.

In language we are striving for the ability to write a good friendly and business letter, and two or three paragraphs in which the child expresses his own thoughts.

In spelling we have a list of 1000 of the most common words in every day use. The spelling and use of these words must be learned perfectly by every child who completes the grades, in so far as this is attainable. To this list are added other words with which every one comes in contact more or less frequently.

These are the things we are emphasizing this year. Of course there are many other essential phases of school work that are being done, but we are trying to keep in mind the fundamental things. In order to reach the standards we have indicated we need the cooperation of all.

#### HEALTH WORK

The annual medical examination of the children of the district was held as usual during the spring term. The following is the result of the examination.

|                   |     |
|-------------------|-----|
| Defective vision  | 10  |
| Defective hearing | 2   |
| Anaemia           | 9   |
| Skin disease      | 2   |
| Defective teeth   | 120 |
| Enlarged tonsils  | 52  |
| Adenoids          | 2   |

Whether much attention is paid to the notices sent to parents is a question. In some cases they undoubtedly are the means of steps being taken to remedy the defect. In the majority of cases they lead to no action whatever. And at this point our health work in the schools breaks down.

The children are examined, defects are discovered, but, usually, no remedial action is taken. The most important step of all, and, in fact, the really vital one, is omitted. It is of no particular value to discover a defect unless it leads to some definite action looking toward remedying it, and parents should consider seriously what such defects mean to their children as regards their mental and physical development. To expect a child who has adenoids, enlarged tonsils, or who is improperly nourished, whose teeth are in bad condition, to develop normally is out of the question. And yet we have many such in our schools, and the teacher and school officials are expected to overcome all these handicaps and turn out a normal product. It cannot be done unless the child is put in proper physical condition in so far as this is possible, and if the parents, either through ignorance or indifference, fail to do this, it devolves upon the school to do it as best it can. And it is a perfectly legitimate expenditure of school funds to provide the means whereby the physical needs of pupils can be attended to.

How large a proportion of the physical disability discovered under the selective service act during the late war might have been prevented had proper remedial steps been taken early we have no way of knowing, but the number probably would have been large. There is a strong tendency to having the schools assume more and more responsibility for the proper physical development of the child.

It seems to me that it is time for the district to consider seriously the question of employing a school nurse, who shall work under the direct supervision of the school board, and give her entire time to the needs of the school children. Of course one naturally thinks of the expense involved in such an undertaking, and whether a small community would be warranted in incurring it. However this plan has been proposed, and is working successfully in some places; the supervisory union to employ a nurse, each district paying a proportionate part of the expense and receiving a corresponding part of her time. She would be a competent woman, trained in her work, and her job would be to take care of the physical welfare of the school children in all possible ways. She could follow up the cases of defects found in the annual examination, advise parents as to necessary steps to take to remedy them, attend to undernourished and undeveloped children and see that they get proper care, look after cases of children who are out of school because of some slight ailment, and in multitude of other ways make her work effective.

Perhaps the school ought not to be compelled to assume such a duty, but the fact remains that there are many children who are being deprived of their normal development because of physical defects, and whose parents neglect to have them attended to, and under these circumstances it is the duty of the school to see that the conditions are remedied. It is to be hoped that the district will give careful attention to the article in the warrant looking to this end.

#### THE EVENING SCHOOL

The evening school began its sessions about Oct. 25th. and, with the exception of a two weeks vacation at Xmas time, has held two sessions each week since that time. There are two schools maintained, one at West Peterborough, and one at the Center, both being held in the school house in these villages.

The school at the West has had a total enrollment of 36, with an average attendance of 18. Because of the frequent change in the population of that village the attendance has been some-

what irregular, but most of the 18 in the average attendance are those who have been very constant.

At the Center the enrollment has been 18 with an average attendance of twelve and a fraction. The attendance here has been very constant, there being several who have not missed a session. This is a record that is worthy of special mention as it is often a difficult matter to keep up interest in an evening school. The interest and enthusiasm of those in both schools who have been regular in attendance has been excellent.

The West school has been in charge of four teachers: Mrs. Jennie Hadley, Mrs. Cora Nichols, Mrs. Ruth Beverstock, and Miss Maud Taggart. At the Center school Mrs. Beverstock, Miss Taggart, and Mrs. Jennie Fields are serving as teachers. Too much praise cannot be given these ladies who, by their interest and enthusiasm, have made both schools a success. They have been on hand, ready for work, at every session, and this in all kinds of weather. The success of both schools has been due to their faithfulness.

At the West the school has been grouped into four classes according to ability and previous education. These groups range from a class the members of which cannot speak or write English to a class that is able to do sixth, seventh, and eighth grade work. At the Center the grouping has been along the same general line with some consideration being given to nationality. In this school two are preparing definitely for citizenship.

At Xmas time a party was given by the school at the West which was greatly enjoyed. The Girls Club of that village kindly giving the use of their club room. From time to time Miss Taggart has given talks, illustrated by views, on her trip to South America. I feel that the school has been well worth while.

#### ATTENDANCE

The usual statistical table of attendance is appended to this report for the year ending June 1921. The per cent of attendance for the year was 93.3. This shows an increase of 3.4 per cent over the preceding year. One has to go back to 1914 to find as good a per cent as this. In that year it was 94.4. In the matter of tardiness, also, there is a decided improvement, there being 692 during the year, compared with 954 for the previous year. 692 cases is an average of 1.6 per pupil in average membership.

Twenty pupils are on the registers as having been neither absent or tardy during the year. This is also an improvement over the 10 pupils so reported for the previous year.

For the first 18 weeks of the current year the total enrollment in the schools has been 506, the largest since the reports have been tabulated. The average membership was 429.1; average attendance, 398.5; per cent of attendance, 92.8; number of tardiness, 366, an average of .8 per pupil. Considering the severity of this winter as compared with last, and the epidemic scares we have had, the record this year, so far, is encouraging.

The great majority of children attend regularly. There are certain families, however, who keep their children out of school on the slightest pretext, and this, of course, lowers our record. The percentage of those who fail of promotion at the end of the year is very materially affected by irregularity of attendance.

#### REPAIRS

The repairs made during the summer have greatly improved the school plant. At the South the interior woodwork was painted. This was done, also, at Wilson Corner, and the general inside appearance of both schools has been greatly improved. At Wilson Corner the row of trees that was standing in the rear of the yard was removed. This was done in order to improve the lighting of the room, and this, together with the painting of the walls and ceiling a suitable color has improved the condition there a hundred percent.

At the Center building the water pipes were dug up and some new piping put in, thus increasing the water flow, so that water is now obtained in the domestic science rooms at all times.

While there have been other minor repairs, these enumerated are the most important.

Several things yet remain to be done. The North and West school buildings should be painted the coming summer. Better toilet facilities should be provided for the North and Wilson Corner as soon as possible.

In the matter of equipment the most pressing need at the present time are suitable seats and desks for the Center school. Those in use now, with the exception of the sixth grade room, and the commercial room, are old and dilapidated. This is especially true of the lower grades. The price of school furniture has been almost prohibitive for the last two or three years, but it has dropped somewhat during the last six or eight months and it is to be hoped that it will be down to a reasonable level soon so that this important matter can receive attention.

#### ORGANIZATION

The organization of the schools remain the same as last year, and the attendant results are the same. The fourth and fifth

grade room and the Junior High are both over crowded. At the West the Primary room had so large an enrollment during the fall and early winter that it was necessary to put the first and second grades on part time for this period. The enrollment has decreased somewhat recently so that full time has been restored to these grades. The enrollment there, however, is so variable that it is difficult to determine what it will be from term to term. The intermediate room has also been well filled.

As will be noted from the report of the Headmaster an additional course has been added to the High School curriculum. This does not require either Latin or French for graduation, and its addition was made possible by the employment of the drawing teacher on full time. She is able to take some High School subjects.

What was said last year regarding the defects of the organization apply at the present time, and it does not seem necessary to state them again as they are perfectly well known.

### MUSIC

The work in music has been very satisfactory this year, and much interest is being taken in it by the pupils. We are apt to understate the importance of this subject in a child's education, and often consider it simply from the standpoint of culture. It has a definite value in mental discipline as well. President Emeritus Elliot of Harvard says that of all the subjects suitable for the training of the mind music heads the list.

Miss Grimes, the supervisor, reports as follows. "Interest continues and good work is being done in all the grades. Four part music is being studied in the Junior High School, and the technical ability and range of voices is such that very creditable work is being done. In the sixth grade three part singing is well under way, and more work can be done in this grade than has been accomplished before. The lower grades are keeping up to the course of study. This year we are making a special effort to read music at sight with words in these grades.\*\*\*\*\* One feature of the work in music this year is a music Memory Contest which is being conducted in the Junior and Senior High schools. This is one of the most important and valuable things that has been done in our music course in the last few years. About 40 records of standard compositions will be studied by the students, and at the end of a specified time about 20 of these will be played for identification at a public contest, when students will be required to give the names of compositions and composers.\*\*\*\*\*After the contest is finished

the records will be taken into the lower grades, and a course in appreciation will be begun there. And thus a certain degree of musical intelligence will be attained before the high school age, and habits of listening and concentration will be acquired in the most formative period of life."

#### DOMESTIC ARTS

Miss Whittemore reports as follows from her department.

"The work in the Household Arts Department for the year has been in the following branches: in sewing we have practically completed the years work. The seventh grade had the following articles to make: an apron (all hand sewing), some piece of underwear, something hemstitched, darning, patching, and embroidery. The eighth grade have some piece of underwear, a dress or kimona, something hemstitched or embroidered, crocheting, darning and patching. The High School have some article of underwear, a dress or middy blouse, something in knitting, crocheting, bedding, embroidery, darning and patching.

In cooking we started with the canning of vegetables, preserving of marmalades and jams, making mustard pickle and mince meat. We have been able to cover the requirements of the state program in our school luncheons, which consist of muffins, plain sandwiches, rolls, or biscuits, cocoa, milk, a main dish and desert. A girl in the first year cooking class of the High School has charge of the bookkeeping of the noon-lunch for three weeks, paying bills etc, supervised by the instructor. Menu's are made out by the Household Organization and Management class who type them for every day and distribute them in every room the night before, collecting them at 9:10 every morning." For the Household Organization and Management class each pupil must prepare for herself a budget based on assumed incomes of \$1000, \$1200, and \$1500 respectively.\*\*\*

The physiology and Home nursing class\*\*\*\*\*are now taking up Home Nursing, a course based on the American Red Cross."

Interest in manual training continues. From Miss Langley's report the following articles, among others, have been made: bookshelves, book racks, kiddie cars, neck tie holders, brush broom holders, sleds, tool boxes, bird houses, hall trees, taborets etc.

In drawing the lower grades have done papercutting, and work with crayons, while the upper grades have worked with water colors.

## THE HIGH SCHOOL

Headmaster Trafton reports: "We have just completed the first half of the school year during which I feel that the spirit of our school has shown a decided improvement. There seems to be a greater pupil interest in school work, fewer failures, less tardiness, and a larger school membership than during the previous year. Since we have a small graduating class and a large entering class we should have a school of 75 pupils next year.

Six pupils have elected the new course which was introduced this fall.

The school orchestra is having another successful year, and now possesses a set of drums as the result of the proceeds of an entertainment given last fall. Much credit is due to the leadership of Miss Clifford.

More time is being given this year to chorus work under the direction of Miss Grimes, who also has a girls' and a boys' glee club. Much interest is being shown in a music memory contest.

I could suggest many desirable and necessary changes about the building but refrain from doing so hoping that we shall have a new school within another twelve months."

## SPECIAL FEATURES

At the North school during the winter, hot lunches are being served. Through the efforts of teacher and pupils a Larkin soap order was secured and the money used in the purchase of a number of dishes and cooking utensils. By the same means a supply of easily prepared foods was secured. A generous friend, becoming interested, gave a substantial sum of money which was used in buying food. Much credit is due teacher and pupils for making these hot lunches possible.

At the South school a friend has given a quart of milk each school day, and hot cocoa has been served to those who bring their lunches.

Through the efforts of a former member of the school board a victrola with a number of records has been secured for both the South and Wilson Corner schools. These instruments are very useful in school work, and are much appreciated. The North and West are the only buildings now not equipped with a victrola.

Much interest has been aroused among the boys in the High School in the wireless outfit which Mr. Trafton has installed. Some kind friend donated a complete receiving set, and concerts

have been heard from as far west as Chicago. On behalf of the schools concerned may I express their appreciation for all this kind interest on the part of the donors. All schools are contributing to the fund being raised by different organizations in the state to provide a portrait of Lincoln to be hung in the state house at Concord. To date \$18.14 has been contributed with two schools not yet reporting.

To the very many who by their cooperation have helped to make the work in the schools successful during the past year permit me to express my appreciation.

Respectfully submitted

L. E. PRIOR

We have examined the account of the Treasurer of the School District of Peterborough as found in this book, and find it correctly cast and properly vouched.

FORREST G. FIELD  
WILLIAM A. KNOWLES  
Auditors

## REPORT OF SCHOOL BOARD TO THE CITIZENS OF PETERBOROUGH

In presenting to you our annual report, it is hardly necessary for us to go into details as regards the teachers, organizations etc., but we do wish to call attention to the fact that we have followed out the same policy in regard to retaining old teachers that we have in several years past, believing thereby, the best results are obtained, and it will be noticed in the report of the Superintendent, that only two new grade teachers were required during the year. Two of the High School teachers who resigned last June, have since married leaving only one who left us for a better position.

Mention is made in the Superintendent's report, also in that of the Headmaster of a new course which was introduced this year. For some time your Board had felt there was a need of what might be called a General Course, which would fit a boy or girl for the ordinary duties of life without any specializing, and with this in view the new course was inaugurated and we believe is working successfully.

In the appended Budget, you will notice a reduction from last year in the amount asked for repairs of \$250., but it might be well to state that in case the District decides it is not best to erect a High School, it will be necessary to install a great many new desks in the present building which is not provided for in the amount named in the Budget.

Your Board has carried out so far as possible your instructions expressed in the last School Meeting, relative to procuring plans and estimates for a new High School; the commission for the plans and specifications has been placed with John P. Kingston & Son of Worcester, Mass., and within a short time drawings of the proposed building will be placed on exhibition. There can be no question as to our needs in this direction; the same crowded condition which has existed for several years still confronts us, the incoming classes are larger, fewer drop out and we have every reason to believe that within two years our High School will number 100 or more pupils, which under the present conditions cannot be accommodated.

We believe that everything points to the coming year as being the most advantageous for the District to erect the building which is so greatly needed, and we expect to come before the meeting with definite plans and proposals which will be of interest to all citizens.

At the last meeting of the supervisory union, the matter of School Nurse was taken up and it was voted to insert an article

in the Warrant of each town of the District, to that end. The State Board at Concord sent a representative who explained the work and the probable cost. We believe that the employment of this nurse would be a great assistance to the Medical Board in carrying out their recommendations and the general health betterment of the 500 children in our District.

Coming down to financial matters, you will note from our Budget that aside from a school nurse, we estimate the requirements for the coming year, \$566.25 and including the School Nurse \$1566.25 more than this year. In the matter of transportation, we estimate \$400. more than last year, for as a matter of fact it will cost us about \$2200 this year.

Having constantly in mind an economical management of school affairs, we do not believe in a penurious policy and we well recognize the fact that the District has always been willing and ready to appropriate the money for which your Board has asked, but there must be a limit somewhere and for the present it would seem to us, we have about reached it, although the "penny wise and pound foolish" principle would never work in school affairs and we are glad to say it never has been the policy in Peterborough.

The present fiscal year still has its obstacles, money appropriated at the annual School Meeting is not available until July 1st, and it is about impossible for the town, closing their books as they do, Jan. 31st, to pay over to the School District the full amount due for the fiscal year ending June 30th. In order that there may be a better understanding of our financial condition, we present the following as on Feb. 1, 1922:

|                             |            |             |
|-----------------------------|------------|-------------|
| Cash on hand                | \$7,524 15 |             |
| Due from the town           | 6,216 57   |             |
|                             | <hr/>      | \$13,740 72 |
| Expenses (known) to June 30 |            | 13,100 00   |
|                             |            | <hr/>       |
| Balance                     |            | \$640 72    |

This balance we expect will take care of the incidental expenses for the balance of the fiscal year. Right here it might be well to add that we never include an incidental account in our Budget; the only way we have of securing it, is from the Dog tax and slight savings here and there on the different items in the Budget.

## INSURANCE ON SCHOOL BUILDINGS

|                                       |             |
|---------------------------------------|-------------|
| Ins. on Center Building and Furniture | \$12,000 00 |
| Ins. on West building                 | 1,500 00    |
| Ins. on North building                | 1,100 00    |
| Ins. on Wilson Corner building        | 750 00      |
| Ins. on South building                | 500 00      |
| Ins. on East building                 | 300 00      |

### **Report of the Medical Advisory Board for the Year 1921**

Medical Inspection of schools has overcome all former prejudice by the steady advancement of the health of the school children. Every child is given a thorough examination by the Board and report cards sent to the parents.

Provisions have been made for Clinics to take care of cases where the expense stands in the way of correcting errors of eye sight and hearing.

The cases of underweight have been greatly overcome by the serving of milk and school lunches.

Medical Inspection efficiency would be greatly increased with the assistance of a Community Nurse working with the doctors and following up cases in the homes under the direction of the child's family physician, instead of a school district nurse employed by several towns as has been suggested.

Sanitary conditions have been greatly improved at the outer districts; we find the crowded condition at the West the same as on previous occasions. The sanitary condition at the Centre school needs attention.

Aside from the regular spring examination, the entire Board have met from time to time to examine special cases, at one time devoting one week to inspect every child for contagious disease, thus avoiding closing the schools.

Great credit is due the Superintendent and School Board for the splendid co-operation they have given the Medical Advisory Board.

## SCHOOL WARRANT

---

To the Inhabitants of the School District of the Town of Peter-  
borough, Qualified to Vote in District Affairs.

---

You are hereby notified to meet at the Town House in said District on Wednesday, the 8th day of March next, at 7.30 o'clock in the afternoon, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To choose a treasurer for the ensuing year.
4. To choose two auditors for the ensuing year.
5. To choose a member of the School Board for the ensuing three years.
6. To hear the reports of the agents, auditors, committees or officers heretofore chosen.
7. To raise and appropriate such sums of money as may be necessary for school purposes for the school year 1922-1923.
8. To raise and appropriate such sums of money as may be necessary to make repairs on school houses or other school property for the school year 1922-1923.
9. To see what sum of money the District will raise and appropriate for Medical Inspection in the schools for the school year 1922-1923.

10. To see what sum of money the District will raise and appropriate for salaries of school officers for the school year 1922-1923.

11. To raise and appropriate such sums of money as may be needed for Insurance on the school houses of the District for the school year 1922-1923.

12. To see if the District will vote to employ a School Nurse and raise and appropriate money for the same or take any other action relating thereto.

13. To see if the District will vote to erect a School Building on the lot selected at the last adjourned School Meeting or on any other lot which may be selected and acquired by the District and raise and appropriate money, or issue Bonds, for the same or take any other action relating thereto.

14. To see if the District will vote to raise and appropriate such sum of money as may be necessary to defray the expenses incurred by the School Board in carrying out the vote of the District at the last adjourned School Meeting, relative to plans and estimates for a new School Building.

15. To choose agents and committees in relation to any subject embraced in this Warrant.

Given under our hands this twentieth day of February A. D. 1922.
